

# Mr. Sprinkles Pumpkin Box Printable

Kay  
the  
Cookie Jar  
Dragon

Approximate size  
of finished box is:  
2 ¼ in (6cm) H x  
2 ¾ in (7cm) W

## Materials:

- Printer paper
- Scissors
- Gluestick or tape
- Craft knife (optional for cutting out interior rectangles)

# Mr. Sprinkles Pumpkin Box Printable

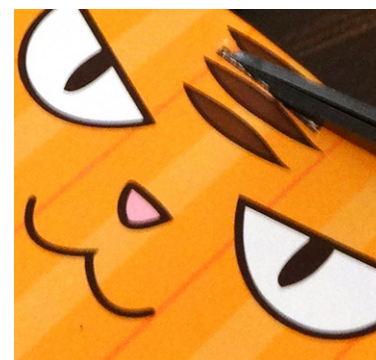

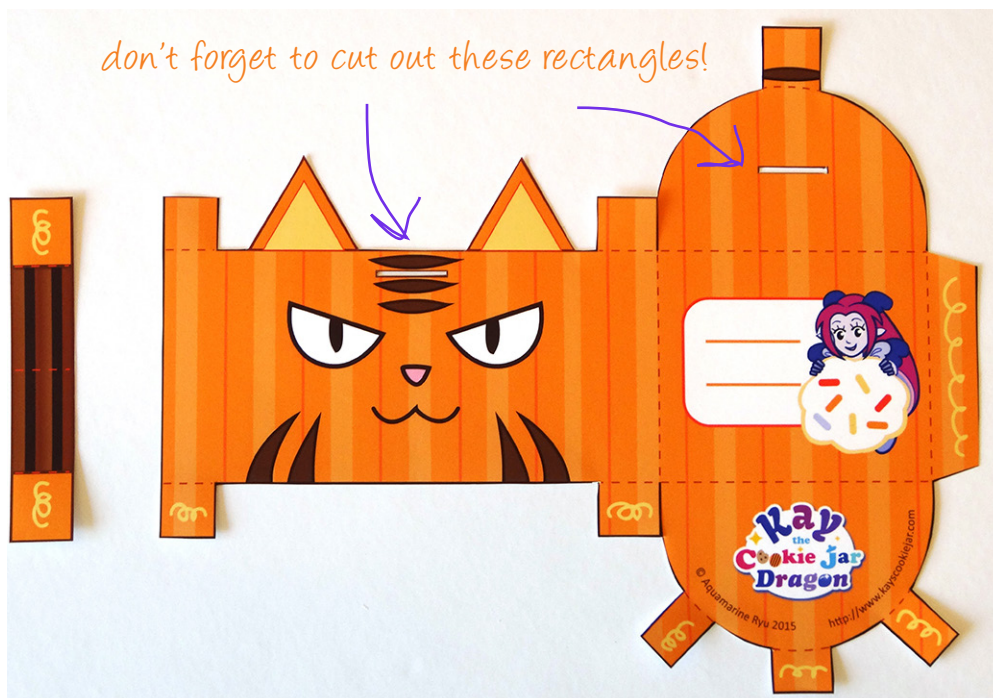

## Step 1: Print!

Print out the Mr. Sprinkles Pumpkin Box pattern onto desired paper.

## Step 2: Careful Cutting!

Cut out the box pieces, including the two small white rectangles on the main part of the box.

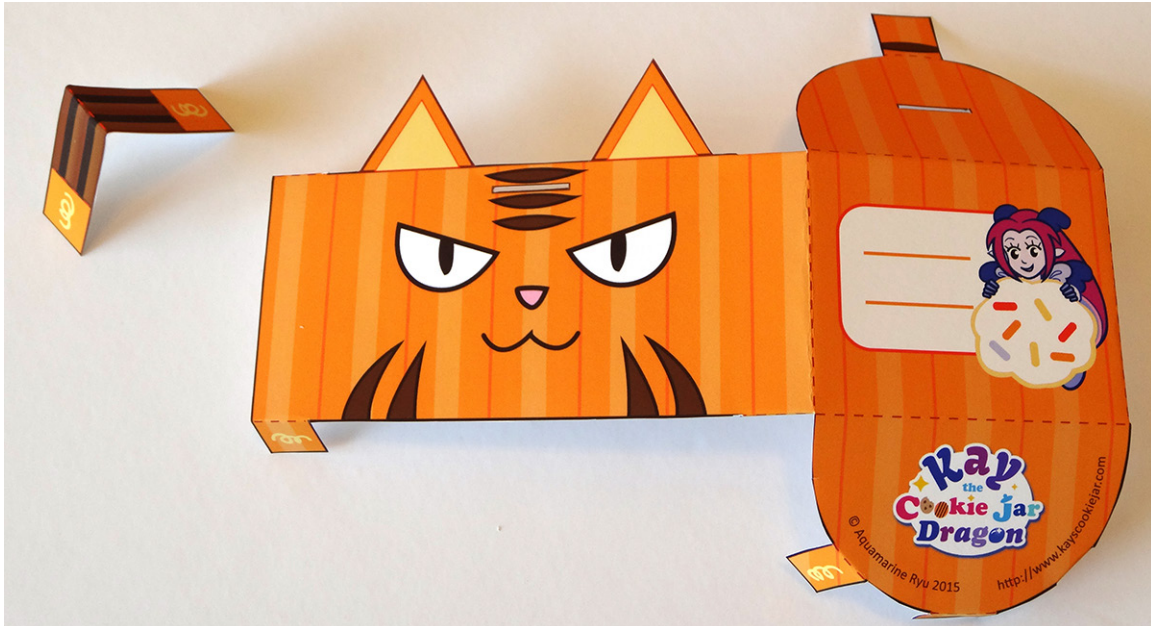

Tip: Using a craft knife can make it easier to cut out the small white rectangles.

Just be sure to follow any safety instructions associated with the craft knife!

### Step 3: Keep Folding On

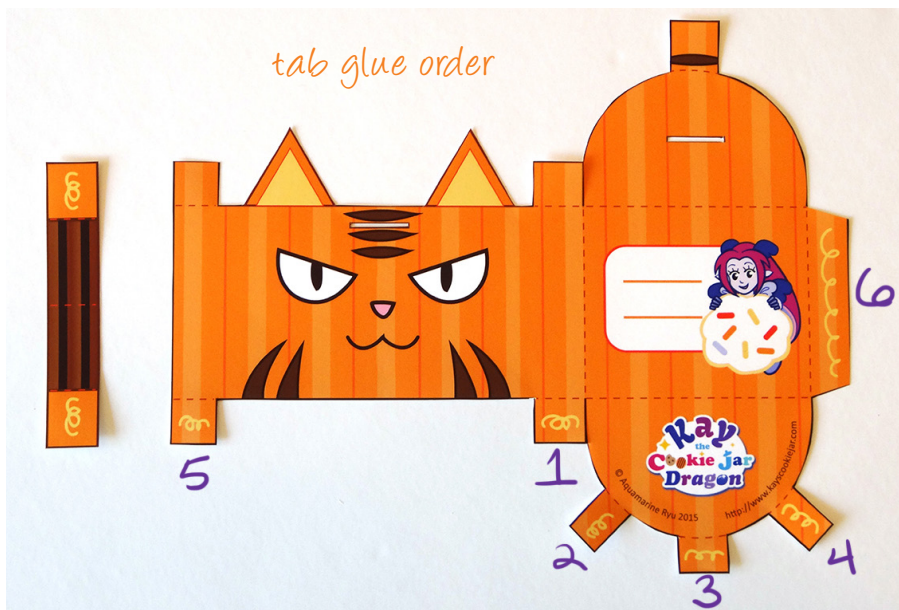

Fold along the dotted lines on the pattern pieces. All folds should be made towards the back of the paper (i.e. the image should always be showing).

The exception to this are the two edge folds on the pumpkin's stem (see photo)!

### Step 4: Pieces, Assemble!

It's time to start gluing the box together! I've found it's best to start with the bottom tab to the right of Mr. Sprinkle's face, gluing each tab individually until you reach the large tab on the side (see photos).

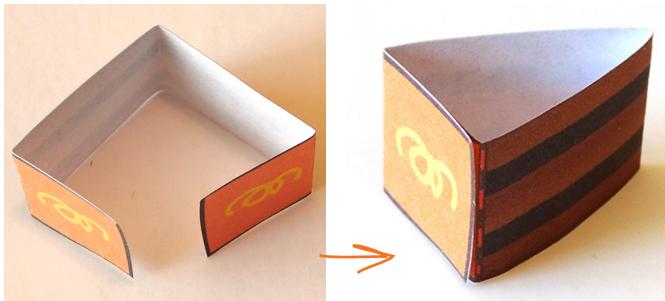

Next, slide the stem piece through the slot on the lid and glue in place.

### Alternate Stem Design:

Tip: if you want to skip cutting out the rectangle in the lid, just fold the stem like the other folds and glue together (see photos)!

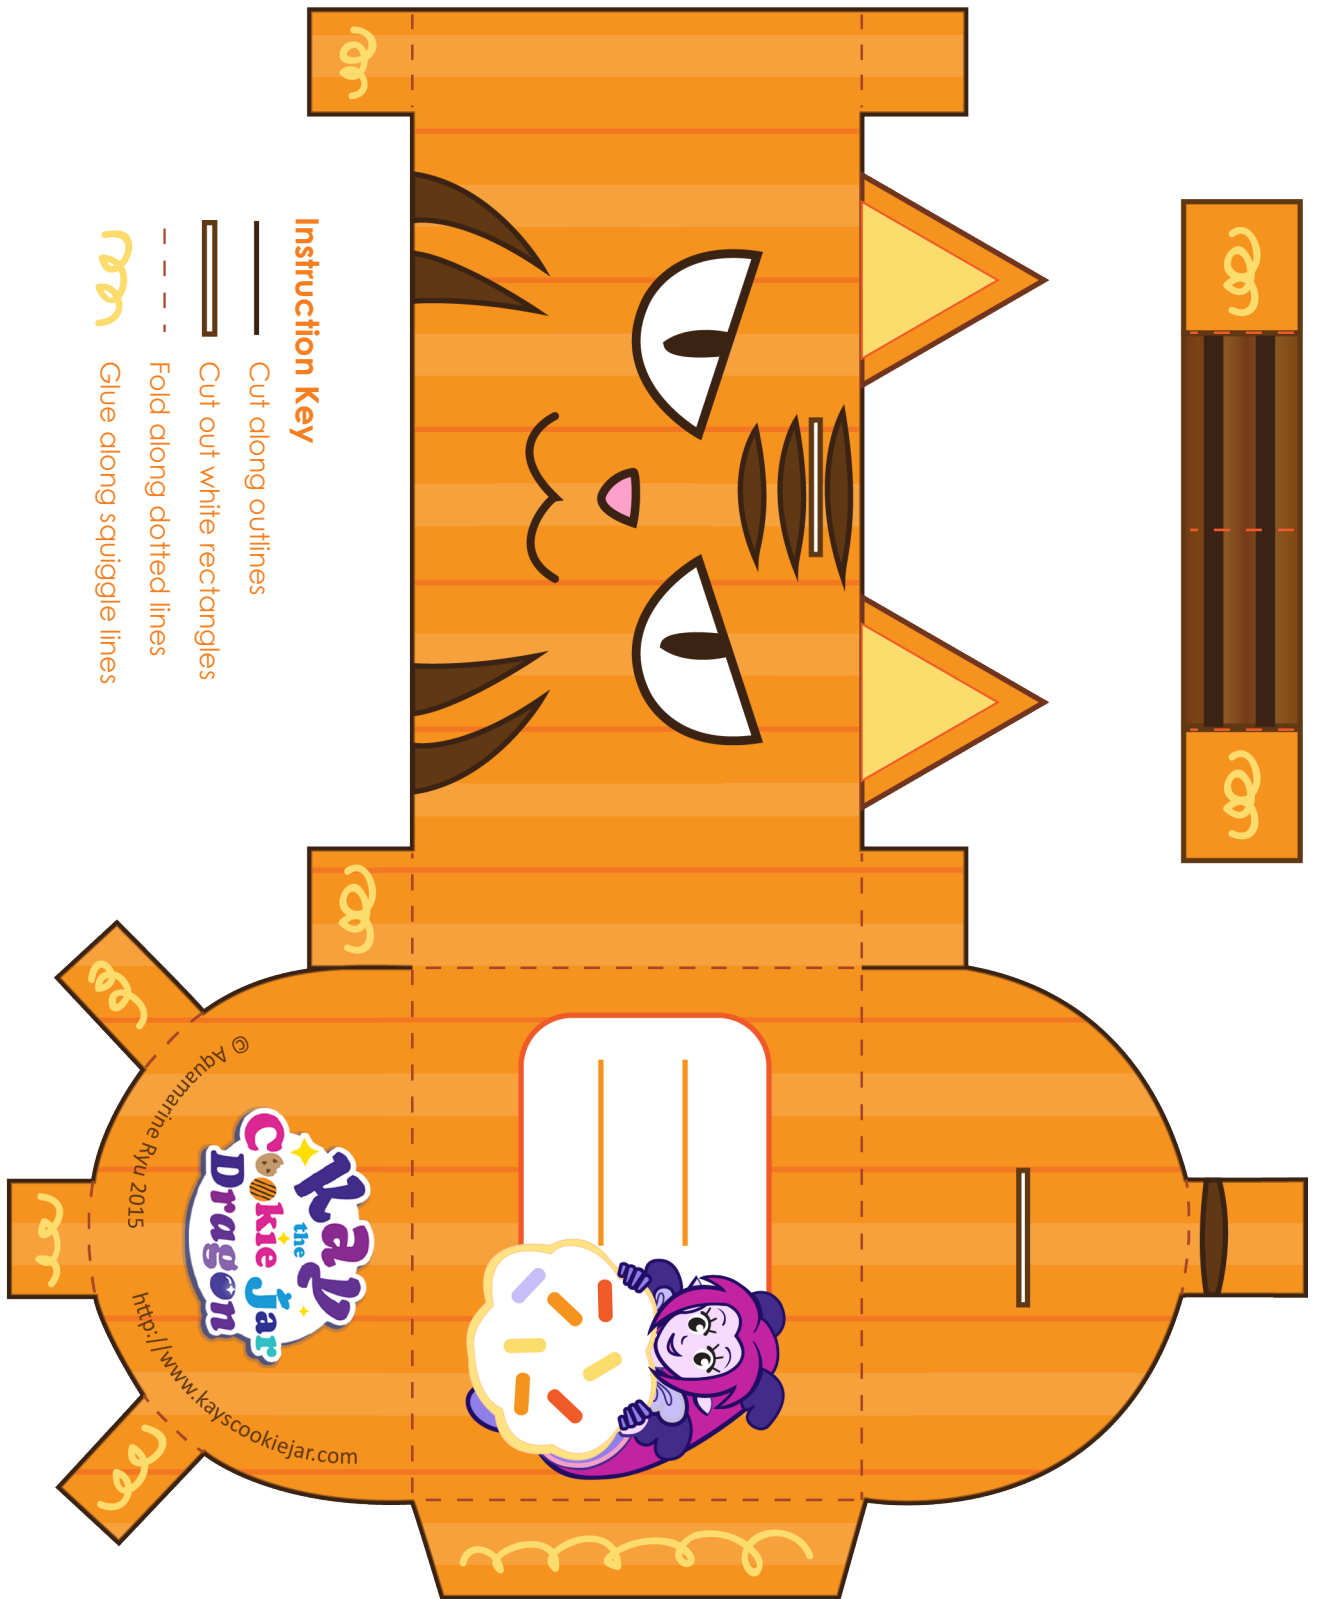

### Step 5: Fill With Fun!

Now that the box is finished, it can be filled with delicious candy, small toys, or other fun treats!
